## Watches *and* Clocks

CATALOG No. 42

1925 - 1926

*The* E. Ingraham Company

Bristol, Connecticut, U.S.A.

PRESENT PLANT OF THE E. INGRAHAM COMPANY

## A Bit of History

The E. Ingraham Company was founded by Elias Ingraham, who, after serving his apprenticeship as a cabinet maker in Marlborough, Connecticut, came to Bristol in 1824 and started in the clock business by making clock cases under contract for Lawson and Chauncey Ives and later for others.

In 1835 Elias Ingraham bought a shop, with water privileges, and commenced making clocks on his own account. He continued making clocks until 1843, when he formed a partnership with Elisha C. Brewster and his brother, Andrew Ingraham, under the name of Brewster & Ingrahams. This firm was succeeded in 1848 by E. & A. Ingraham, who continued business until 1855, when their plant was entirely destroyed by fire. It is interesting to note that at this

time they had New York connections with Edmund Clarence Stedman, the banker poet, under the name of Ingrahams & Stedman.

Two years later, Elias Ingraham rented a shop, and in 1859 formed a co-partnership with Edward Ingraham, his son, which was continued until 1881, in which year a joint stock company was formed under the name of The E. Ingraham & Company, which was later changed to The E. Ingraham Company.

Elias Ingraham, the founder of this business, was born in Marlborough in 1805, and died in Bristol in 1885. Being a cabinet maker by trade, he naturally went into the clock business on coming to Bristol, for even as early as 1824, Bristol was known as a clock making center. Later, in 1855, there were about sixty independent clock producers, this concern being the only direct survivor. There were also numerous small manufacturers making clock parts, none of which now survive.

Elias Ingraham was a man of many superior qualities, and also of an inventive turn of mind. Seeking a wider market for his clocks, he went to Caracas, Venezuela, by sail, and on the long return voyage whittled out of a block of mahogany, with his jack-knife, the design for a clock case which was the original "Sharp Gothic," destined to play so large a part in the history of Yankee clocks.

Plant about 1875

*The* E.INGRAHAM COMPANY

Bristol, Conn. U. S. A.

ELIAS INGRAHAM  
Founder and President 1824-1885

EDWARD INGRAHAM  
President 1885-1892

On his return to Bristol, he put this clock on the market and it became a quick seller. As he did not protect his design by patent, it was extensively copied, and it is believed to have been the best seller of any distinctly American design for clocks. This original design was by far the best in point of design of any of the Sharp Gothic clocks. It may also be stated that many popular designs for clock cases in use in the United States prior to 1875 were designed by Elias Ingraham.

Edward Ingraham, son and partner of Elias Ingraham, conceived and originated the manufacture of the Black Enameled Wood Case, which for many years was the standard finish for high grade mantel clocks.

Since the day of Elias Ingraham, this Company has always been at the front in respect

to the excellence of their designs and in their manufacturing facilities and methods. About 1898 this firm began the manufacture of standard alarm clocks; in 1913 the manufacture of low priced watches; and in 1915 of eight-day alarm clocks.

The entire plant today is equipped with the most modern machinery obtainable, and a large force of skilled American workmen is employed. The Company now produces and sells millions of clocks and watches yearly. The growth and success of The E. Ingraham Company is due to a policy of standardized quantity production, with consequent economies in manufacture; an efficient, consistent sales policy whereby its products are distributed at a minimum cost; and last but not least, an exceptionally low overhead.

## Guarantee

INGRAHAM WATCHES AND CLOCKS are thoroughly tested and carefully inspected and we *guarantee* that they will run and keep good time for at least one year, if not subjected to misuse or abuse. Any failing to do so will be repaired or replaced (at our option) without charge. We do not, however, guarantee our Watches or Clocks against misuse, abuse, or damage in transit, nor do we guarantee cases against ordinary wear. When repairs or replacements are required due to such causes a moderate charge is made therefor.

THE E. INGRAHAM COMPANY

## Packing and Packing Charges

### Watches

Watches are packed in individual pasteboard boxes, twelve watches in a sealed carton.

### Alarm Clocks

An additional charge of two cents per clock, with a minimum charge of twenty-five cents is made for packing Alarm Clocks in less than case lots.

### Eight-Day Clocks

College Assortment packed three in a box. All other Mahogany Finished, Mahogany and Black Enameled Mantel Clocks and Office Clocks packed singly. All Kitchen and Semi-Cabinet Clocks packed six in a box. Where clocks are regularly packed in an assortment an additional charge of ten cents per box is made for boxing in less than full assortments.

### Imprinting and Lettering

Dials of Viceroy Watches will be imprinted in 1,000 lots and larger quantities, and the name Viceroy will be omitted, if required. Dials of other watches will be imprinted only in 1,000 lots and larger quantities and name of watch will not be omitted. Alarm clock dials bear name and brand of manufacturer and will not be otherwise imprinted. Lower glass of Office Clocks will be printed with customer's name and address in lots of six without charge. A charge of twenty cents each will be made for lettering in smaller quantities.

### Shipping Weights

For the convenience of buyers we have tabulated below the approximate weights of our watches and clocks when packed for shipment.

#### Watches

Three dozen in a carton . . . . .	7 lbs.
One gross in a carton . . . . .	28 lbs.
Two gross in a wooden box . . . . .	65 lbs.
504 Watches in a wooden box . . . . .	100 lbs.

#### Alarm Clocks in Case Lots

Indian . . . . .	62 lbs.
Liberty . . . . .	62 lbs.
Rattler . . . . .	65 lbs.
Sentry . . . . .	85 lbs.
Victory . . . . .	67 lbs.
X-Ray . . . . .	62 lbs.

### Eight-Day Clocks

Six Mahogany Finished, Mahogany or Black Enameled Mantel Clocks weigh approximately one hundred pounds. The College Assortment (three in a box) weighs twenty-five pounds per box. Kitchen and Semi-Cabinet Clocks (six in a box) weigh seventy to seventy-five pounds per box. Small Office Clocks weigh ten to twenty pounds each. Large Office Clocks weigh twenty to thirty-five pounds each.

## Fittings for Kitchen and Cabinet Clocks

Kitchen Clocks may be fitted as follows:

- Gongs, \$1.00 each additional list.
- Alarms, \$1.00 each additional list.
- Calendars, \$1.00 each additional list.

Both Alarms and Calendars cannot be fitted to the same clock. All Calendar Clocks have Roman dials. All Kitchen Clocks are packed six in a box and fitted with Arabic dials. All Kitchen Clocks finished in oak.
